

As a supporter of K-LOVE radio station, I ask you NOT give priority to LPFM over current FM translator service. I believe this would negatively affect my K-LOVE local reception. K-LOVE is THE ONLY radio station I listen to, and the one I want to be available for my children. It provides uplifting and safe music for my family. This type of broadcasting, on radio or any other communication, is so necessary in today's negative society. Please protect this station.
